THE MASTER OF MOOD MEDIA

FULL CONTROL WITH MINIMAL INTERACTION

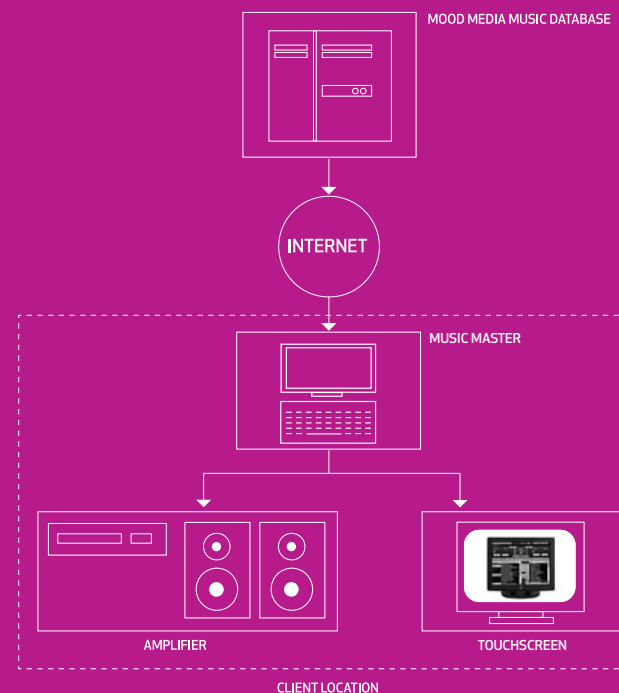

The Music Master is a proven system that combines unparalleled reliability with advanced software, offering you and your company incredible flexibility while allowing you to stay in control of your audio experience.

You can choose the appropriate genre by simply pressing a button on the very user-friendly operating system. The numbers offer pleasant variation but without irritating volume differences or annoying repeats. You can create your own playlist to adapt the collection in accordance with the desired ambience, and you can also respond quickly to any specific requests via the search function. Depending on your service package, you could even download tracks that are not available in your Music Master via Mood Media's online database.

Key features include:

- **Music:** 35 music channels from 11 genres.
- **Online:** You can adapt the collection to suit your own personal choice via Mood Media's extensive online database.
- **DJ function:** The virtual DJ smoothly mixes all the numbers from your favourite genre.
- **Pitch control:** With this function you can easily determine the pace of your music.
- **Multi-room:** With just one MUSIC MASTER player, you can play different music in up to three separate areas.
- **Music management:** You can gear your MUSIC MASTER completely to suit your own music requirements.
- **Ready-made updates:** The latest music is always available via the Mood Media updates.
- **Jingles:** This is an excellent tool for attracting the attention of your customers or for creating a certain ambience.
